

Webster Industries (a proud sponsor of the ACUPCC), in conjunction with The Arbor Day Foundation and the National Forestry Service, plants trees in areas that are in need of reforestation either as a result of fires, disease or insect infestation. Trees store CO2 (greenhouse gas) and help combat the effects of global warming and release oxygen into the atmosphere. The Arbor Day Foundation plants trees and provides stewardship to ensure the health and survival of those trees.

A single mature tree can absorb CO2 at a rate of 48 lb./year and release enough oxygen back into the atmosphere to support two human beings. Imagine what 100 trees can do!

2009 Earth Day

ReRecycleClaim™

Promo

Purchase ReClaim or Webster-certified brand of recycled can liners between now and 9/1/09 and, in your school's honor, Webster/Arbor Day Foundation will plant

100 Trees!
