

Introducing

High-Density Can Liners

- Contains 10% post consumer recycled plastic
- Made with high-density resins for puncture resistant sidewalls
- High density resin bags are source reduced, which means they use less plastic than traditional low-density bags without sacrificing bag performance
- Translucent color is ideal for recycling and pilferage control
- Ideal for office and light industrial use, lightweight trash and paper.
- Small count rolls are easily stored
- Star bottom perforated, coreless rolls dispense bags one-at-a-time for ease of use and portion control
